ADDITIONAL INFORMATION SUPPORTING njd (e.g., paragraph 1 site conditions; paragraphs 2-3 rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 site information on waters of the U.S. occurring onsite): This site is an approximately 78 acre site located in Section 15, T8N, R12E, Town of Medina, Dane County, Wisconsin. This property is an active agricultural operation and includes a house and outbuildings, active agricultural fields and wetlands. The Mauneshia River is located offsite to the NE about one-half mile.

An approximately 20-acre wetland complex was located in the central portion of the parcel. This wetland consists of a disturbed fresh wet meadow dominated by Reed canary grass. Review of the survey, aerial photos, topographic map, and the NRCS wetland map do not show the wetland being adjacent or tributary to any Water of the United States. There are no potential navigation or interstate commerce connections. Therefore, a non-jurisdictional determination was made.

No other waters of the United States occur onsite.
